

# Yard by Yard

## Materials

For each pair of students:

- Yard by Yard* spinner
- Yardstick or measuring tape
- 2 game tokens (2 colors)

## Number of Players

2

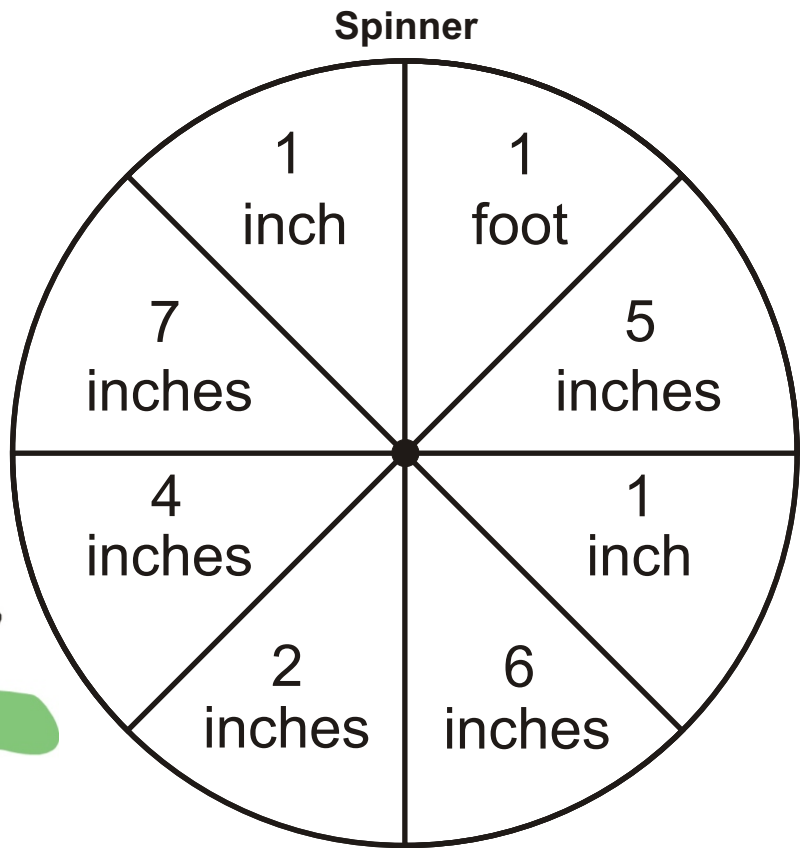

## Directions

1. Divide the students into pairs.
2. The student closest in height to a yard is Player 2.
3. Both players put their game token at zero on the shared yardstick.
4. Player 1 begins by spinning the spinner.
5. If (s)he lands on four inches, Player 1 moves his or her game token four inches on the yardstick.
6. Player 2 spins the spinner and moves his or her game token the amount shown on the spinner.
7. Play continues with each player taking a turn until a player's token reaches or exceeds a yard.
8. The winner is the first player to reach or exceed one yard.

## Variation

Make it harder by having the winner get exactly one yard and/or by having the students record their answers on paper, keeping a running total as they play the game.
